Assessed valuation...... $4,526,895
Total population....... 25,733
White population...... 13,665

In 1914 the Latta Library was established with a Carnegie Building and a tax of one mill on the Latta School District. When county library service was inaugurated in July 1929 a half mill on the entire county was levied. In 1935-36 another half mill was put on by the county delegation to aid in addition to building built by W.P.A. This extra one-half mill has been continued since for library extension making one mill on the entire county and an additional one mill on the Latta School District.

The first bookmobile was secured in 1938 through the cooperation of the W.P.A. The Lake View and the Dillon libraries of the Dillon County System are dependent on the W.P.A. for personnel.
