White population: 25,496

In 1935 the Batesburg Public Library, which had become inactive, was reopened with W.P.A. aid. Through the cooperation of the local sponsors and the community the books are now housed in two well lighted and well equipped rooms in the Town Hall. Many new books have been added from funds received in many ways. Several hundred books have been lent to the library by the W.P.A. The bookstock is 1,868 and these were circulated 7,454 times to the 674 registered borrowers.
